

THE VA'AD E-NEWSLETTER
SHABBAT PARASHAT TAZRIA-METZORAH ~ 3 IYAR 5767 –
APRIL 20/21, 2007

KASHRUT ALERTS

Local:

§ Effective immediately, certification of the Mysore Masala restaurant in Redmond, WA (formerly called Namasthe) has been removed due to kashrut violations.

§ **Goya brand coconut milk** is acceptable without a hechsher providing it says “product of the Dominican Republic”. In general, coconut milk does require an acceptable kosher symbol.

§ We post a list of recommended hechsherim on our website (<http://www.seattlevaad.org/KosherSymbols.html>). Products under other hechsherim *may* be recommended on a case-by-case basis. If you ask about a particular product, we will follow up as soon as possible. Please be aware, however, that our recommendation of a product from a non-listed hechsher does **not** automatically mean that everything from that hechsher is recommended.

National:

§ You can find a list of recent kashrut alerts at <http://www.kosherquest.org> or www.kashrut.com. As always, please consult with your rabbi or the Va'ad if you have any questions about specifics.
